zahid.zain@hotmail.com
zainzahid.github.io

Highly motivated full-stack developer with over 3 years of experience building applications using software technologies like the MEAN/MERN stack. Proven ability to adapt and excel in both front-end and back-end development. Strong commitment to delivering high-quality, scalable solutions.

SKILLS

Front-End: Angular, React.js, Next.js, CSS3, SASS, Styled Components, Tailwind

Back-End: Node, Express.js, RESTful APIs, SQL, MongoDB, GraphQL, ASP.NET MVC(Familiar)

Languages: Javascript, Typescript, C#, Python(Beginner)

Others: Git, Unit Testing, E2E(Playwright, Cypress), Ionic Mobile Development, Native Android(Beginner)

EXPERIENCE

Full-Stack Developer

Cloudtek Inc, Islamabad

MAY 2021 - PRESENT

- Working closely with clients and leading the team of full-stack developers to deliver innovative solutions.
- Worked on developing MEAN Stack Application provides background checks with a Dynamic UX Management module that supports multiple themes/layouts and app versions utilizing Angular, Node.js, and MongoDB, along with Jasmine, Karma, and Jest for unit testing, Playwright for end-to-end testing, and Gitlab for source control and project management.
- Worked on React + Next.js Project. Successfully migrated a legacy Wordpress-based CMS to a modern JAM-stack application using Wordpress REST API as a headless CMS, Next.js on the front end, and React Query for cache and state management.

Software Engineer (MEAN Stack)

Locopixel Pvt Ltd, Islamabad

JULY 2019 - DECEMBER 2020

- Worked on MEAN stack-based web application and Ionic mobile app for the government of Punjab agriculture project, focused on monitoring, management, and land demarcation

- Contributed to the design and development of a logistics software project featuring a microservice architecture, utilizing Node.js, Angular, MySQL, and MongoDB for complete shipment tracking and management.
- Involved in the complete software development life cycle from requirement gathering to application in production.
